
Wherever Tools are used

VISE-GRIP

IS THE GREATEST OF THEM ALL

Buyers are Boosters

"It's the smoothest thing in a tool I've ever seen."—J. D., Mechanic, Pa.

". . . just one other thing in regard to the Vise-Grip Wrench: even though you manufacture the tool I'll venture to say that you don't know half the jobs it will do."—L. D. B., Alabama.

"It's a thrilling job—this demonstrating the Vise-Grip—no end to what it will do."—Factory Representative, Indiana.

"Vise-Grip pinch hits for a whole kit of tools in the service car."—C. B. D., Garage Owner, Illinois.

"In flying we must consider weight. That's why I carry a Vise-Grip—because it gives a maximum of tool usefulness with a minimum of weight."—L. E. F., Pilot, Ohio.

"I'm forgetful, but if I can remember my Vise-Grip when I go to the field I'll be all right."—A. E. T., Farmer, Missouri.

"We use it for a jig on our production line. It always stays in adjustment and the ton pressure is just what we need."—R. W. P., Production Foreman, Nebr.

"Vise-Grip is the most active tool in my kit. I use it for pulling fish tape and all sorts of heavy twisting and bending operations."—Electrician, Manitoba.

"In close quarters on small work a pipe wrench has too much lost motion so I use my Vise-Grip. It can't be beat. It's worth a lot more than it cost on a single job."—Plumber, New York.

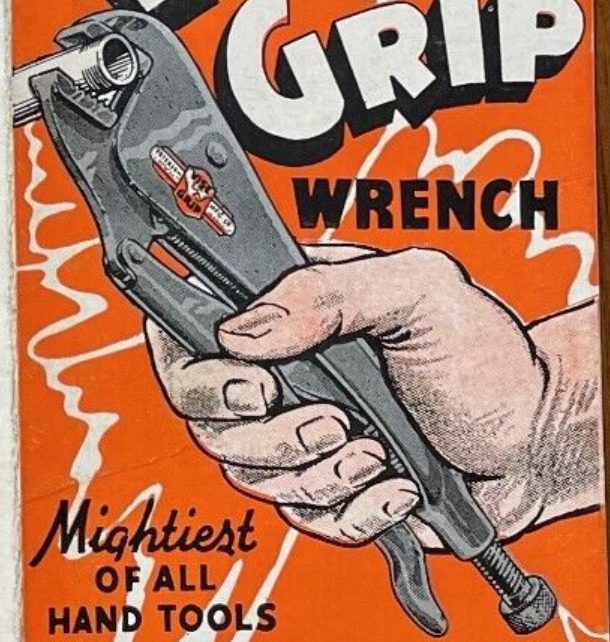
Form L.

VISE-GRIP WRENCH



Mightiest OF ALL HAND TOOLS

LOCKS TO THE WORK WITH TON PRESSURE

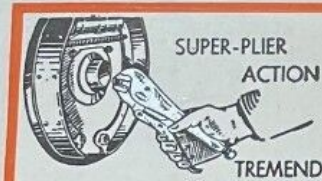
MADE BY

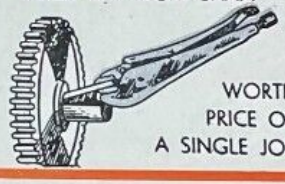
PETERSEN MFG. CO.

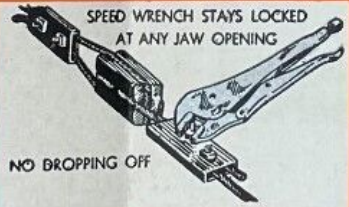
DEWITT, NEBRASKA, U. S. A.

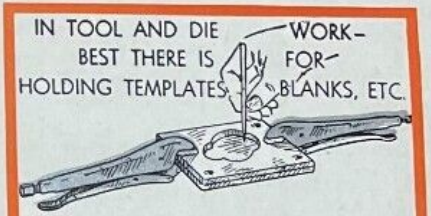
VISE-GRIP

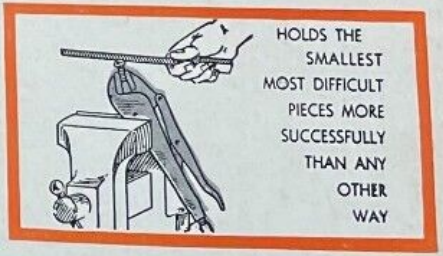
DOES MORE THINGS, EASIER, QUICKER AND SAFER THAN ANY OTHER HAND TOOL . . . . . .











VISE-GRIP IS ALL OF THESE:—(1) Adjustable End Wrench; (2) Pliers; (3) Locking Wrench; (4) Pipe Wrench; (5) Vise; (6) Clamp; (7) Toggle Press—All in One Light, Trim, Handsome Tool.

World's Most POWERFUL, Most Useful Hand Tool!

VISE-GRIP WRENCH

Made in Two Handy Sizes

LOCKS as it GRIPS

Powerful "Double-Lever" Action Locks Jaws with TON Pressure

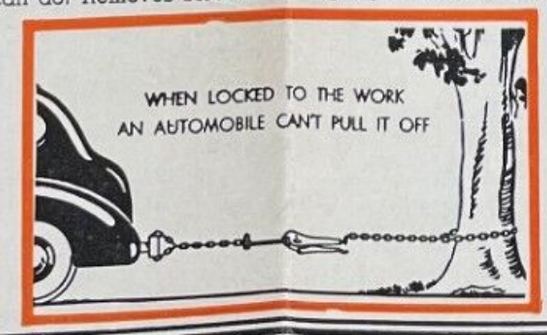
VISE-GRIP is the only wrench that will—

1. **Exert more than a ton of pressure between the strong alloy steel jaws with the grip of one hand.**
2. **Lock to the work with a grip that will not slip — and remain LOCKED WITH THE HANDS REMOVED.**

This powerful locked grip is the result of Vise-Grip's exclusive "Double-lever" action. The main lever works against a special toggle-arm and provides a leverage so great that it makes Vise-Grip **THE MOST POWERFUL OF ALL HAND TOOLS.**

MAKES "PLAY" OF IMPOSSIBLE JOBS

Because of its terrific non-slip grip, Vise-Grip is easily the most **useful hand tool built.** It does things no other wrench can do! Removes screws with worn slots, turns round nuts, rusted bolts, removes broken stud bolts, clamps parts together while being drilled, welded, ground, etc. — pulls square keys from shafts, pulls cotter pins. Does all manner of heavy twisting, forming, bending. Is quickly attached handle for holding short hacksaw blades, pieces of file, etc., for working in difficult places. It is VISE, CLAMP, PLIERS, OPEN END WRENCH, LOCKING WRENCH, PIPE WRENCH, TOGGLE PRESS—ALL IN ONE!



ADJUSTABLE TO RATCHET-LIKE OR PLIER ACTION

When adjusted for plier action the Vise-Grip becomes a tremendously powerful pliers—many times more powerful than ordinary pliers. The Vise-Grip adjusts exactly to the size of the work, stays adjusted and opens automatically when grasp is released, ready to take a new hold.

EXCEPTIONAL SAFETY

Because of Vise-Grip's tremendous grip it does not slip. Eliminates skinned knuckles, bruised hands, and other injuries so common with tools that slip.

GUARANTEED

VISE-GRIP is guaranteed against defects in material and workmanship.

Made of high-grade alloy steel scientifically hardened and tempered. Finished with bright cobalt nickel.

NET PRICES

No. 10—10" $1.95
(10" Weight 19 oz.—Adjusts 0" to 1¼")

No. 7— 7" $1.65
